

*Spring cleaning, or anytime of year ...*

Make it fun with *easy and affordable* organizational products by Longaberger®!

**Get organized!**

**Use a ba..bas..basket.. Protector!!!**

I know it will be hard to do this because I'm going to ask you to view your catalog WITHOUT looking at the baskets and pottery! But WITH just two words in mind: Organize and Cheap! That's right! Cheap in price BUT not in quality are Longaberger's plastic Protectors and glass Canning Jars!

Protectors come in a variety of sizes and shapes. Some have snap-on lids. Some are divided for compartmentalization. Some are stackable offering even more compartments. Our Canister Protectors like our Canning Jars have vacuum-sealed lids, and both sport an embossed *basket-weave pattern* on clear glass or plastic, and that lets *what's inside show through... in style!*

**Organize Drawers!**

*Rid yourself of the infamous junk drawer!*

Protectors for rectangular-shaped baskets, like the Bagel and Cracker, are *the perfect size* to organize flatware and other kitchen utensils. And scissors, rulers, pens, pencils, etc., in the desk drawer.

Rectangular-shaped protectors are also *the shape* to start a **windowsill garden** of herbs or flowers! Simply use one protector as the base, and the other protector, turned upside down, to top it off and create the hothouse affect. Before planting, use a layer of fine gravel for drainage.

Many Protectors are divided and offer you compartments to organize craft supplies, sewing notions, cosmetics, and your everyday jewelry can be separated and kept untangled!

Many Protectors have snap-on lids, so if you're sitting them on your vanity, counter, tabletop or craft bench, the lids keep out the dust.

**Organize your Picnic or Dinner Party!**

Protectors with snap-on lids allow you to prepare ahead cold salads, condiments, veggie or fruit trays and dips.

Fill Protectors with ice and nestle in cold dishes to keep food chilled on the tabletop. Use large Protectors as an ice chest for bottles and cans!

**Organize your Pantry!**

*Tired of all those lazy leftover chips and crackers in opened bags laying around your pantry?* Four sizes of round Canister Protectors with Vacuum Lids will make you smile every time you open your pantry door. Fill them with those lazy leftovers, or snack packs, tea bags, coffee, flour, sugar, cereal, pasta, nuts, pretzels, chips... *the list is endless!* And for just a few *lazy leftovers*, use a Canning Jar!

Protector or Canning Jar, these inexpensive, durable and attractive products look fabulous on your countertop, too, especially when filled with colorful pastas, candies and needed staples! In your craft room, keep your supplies *in clear view*, or in your sewing room filled with colorful spools of thread, bobbins and buttons... ***just imagine!!!***
